

GET /v1/get-active-package-for-users

Retrieve all currently active packages (repost packages and category packages) subscribed by a user.

Query Parameters

| Name | Type | Required | Description |
|---------------------|---------|----------|--|
| <code>userId</code> | integer | Yes | The unique identifier(or mobile number) of the user. Example: <code>?userId=99666348</code> |

Response Structure

Response Root

| Key | Type | Description |
|-----------------------------|---------|--|
| <code>status</code> | integer | Status of the API response (e.g. <code>0:success, 1:failed</code>). |
| <code>repostPackages</code> | array | List of active repost packages subscribed by the user. |
| <code>planPackages</code> | array | List of active category-based packages subscribed by the user. |
| <code>userType</code> | string | Identifies if the user is a company or a normal user. |

repostPackages[] Object

| Key | Type | Description |
|-----------------------------|---------|---|
| <code>packageType</code> | integer | 0 = Days Package, 1 = X-Actions Package |
| <code>repostInterval</code> | integer | Number of days after which repost is allowed (0 for X-Action packages). |

| | | |
|--------------------------------|------------------------|---|
| <code>packageStartDate</code> | string (YYYY-MM-DD) | Subscription start date. |
| <code>packageExpiryDate</code> | string (YYYY-MM-DD) | Subscription expiry date. |
| <code>usageCount</code> | integer | Total reposts used (applies only to X-Action packages). |
| <code>totalCount</code> | integer | Maximum repost count allowed (X-Action only). |

planPackages[] Object

| Key | Type | Description |
|--------------------------------|------------------------|--|
| <code>categoryId</code> | integer | Category associated with the package. |
| <code>packageStartDate</code> | string (YYYY-MM-DD) | Subscription start date. |
| <code>packageExpiryDate</code> | string (YYYY-MM-DD) | Subscription expiry date. |
| <code>usageCount</code> | integer | Count of times this package has been used. |
| <code>totalCount</code> | integer | Maximum allowed usage limit. |
